

Chapter 6: Continuous probabilities

Description		Function in Excel
1 Normal distribution		
	$P(X < x)$	=NORM.DIST(x,mean,std.dev,TRUE)
2 Inverse of normal (X) distribution		
	$P(X < ??) = \text{prob}$	=NORM.INV(prob,mean,std.dev)
3 Standard normal (Z) distribution		
	$P(Z < z)$	=NORM.S.DIST(z,TRUE)
4 Inverse of Standard normal (Z) distribution		
	$P(Z < ??) = \text{prob}$	=NORM.S.INV(prob)
5 Exponential distribution		
	$P(X < x)$	=EXPON.DIST(x,lambda,TRUE)
